

## **Warning to Potential Investors**

It has been drawn to our attention that some prospective investors have been offered shares in a number of companies, including FOGL, by entities whose name suggests (incorrectly) that they have a connection with a major financial institution and in some cases the communications have suggest a connection with FOGL.

If any organisation with which you are not familiar offers you shares we recommend that you check the situation very carefully ahead of entering into any contract and/or paying any money. The Company is not currently undertaking any share offering and if anyone is purporting to be acting on behalf of the Company in relation to such an issue, we recommend that you contact us to check the position.
